

What is it?

This is an outdoor session where clients learn to sow, grow and harvest a variety of fruit and vegetables within the Acorn allotment.

What is involved?

The Allotment project allows individuals of all abilities to take part in outdoor gardening through the use of various low-level and raised flower beds. You will participate in this session by taking care of the garden allotment and help maintaining it to a good standard. Activities may involve light or heavy digging, planting, weeding, watering and harvesting.

Any produce grown and harvested within the allotment, is then sold within the Acorn shop from our honesty box stand.

What skills are learned?

- Practising safe digging and weeding techniques on the allotment
- Sowing seeds and planting bulbs that are suitable for the season
- Growing a variety of plants from cuttings
- Caring for fruit and vegetables through regular watering and pruning
- Assisting with the harvesting of ripe produce
- Sorting and pricing produce for the allotment honesty box.
